CHAMBER HEALTH INSURANCE PROGRAMS

"I am your resource for the highest quality coverage at the lowest possible cost"

The Salem Chamber of Commerce members have access to the major health insurance carriers and a wide variety of health insurance programs to meet your needs. I am a Certified Health Consultant and I help Chamber members find the program that is best for them.

If you are self employed, have a small business or just want to save some money on health insurance, dental coverage and other benefit programs, I can help you!

I have over 30 years experience in the insurance market. I have worked for Blue Cross Blue Shield and the Lahey Clinic and now I work for you as an independent broker. I understand the product choices and the difficulty you have in finding affordable coverage.

The best way to get an insurance quote is to call me. All I need is the following basic information and your email address and I can usually email the quotes to you within 24 hours. You can also email me with the Subject "Chamber Member Health Quotes." Please include your business name, address, type of business and the name of employees to be insured. For each employee, I need to know their date of birth, home zip code and whether they want individual or family coverage.

The only way for small businesses to reduce the cost of coverage is to compare competing programs at least annually and change either the carrier or the coverage. I will help you do this. Please give me a call.
